

The individual Fences puzzles may be solved as shown below.

Once completed, the "practice" fences can all be fit into the larger field as shown at the right. The cattle that remain free may be read line by line as Morse code, reading the bulls as dashes and the cows as dots. This spells the answer phrase BULLS' PEN.

Note that it's possible to fit the practice fences into the larger field rotated 180° from the position shown. In that configuration, Morse letters are revealed spelling DO REALIGN.

- • • • = B
- • — = U
- — • • = L
