KŪ SOLUTION - COIN

Grids can be filled with the answer words as shown below. Within each group, each answer word can form a compound word or phrase with a common key word, either coming before the key word (crossing a green square) or after it (crossing a red). The colored column will spell the key word, but in each set one of the clue answers must have a letter added to complete the key.

									В	I	L	A	С	к					T	М	A	G	N	E	1	r I		С													С	R	L	i T	5	s I	Е

Grids are arranged alphabetically by key word. Taking the added letters from the top of the column down spells BIT (all in green) and TOSS (all in red). The word that can be preceded by BIT and followed by TOSS is the answer COIN.
