

TELOMIAN DOGS SOLUTION – ABODES / AMITY

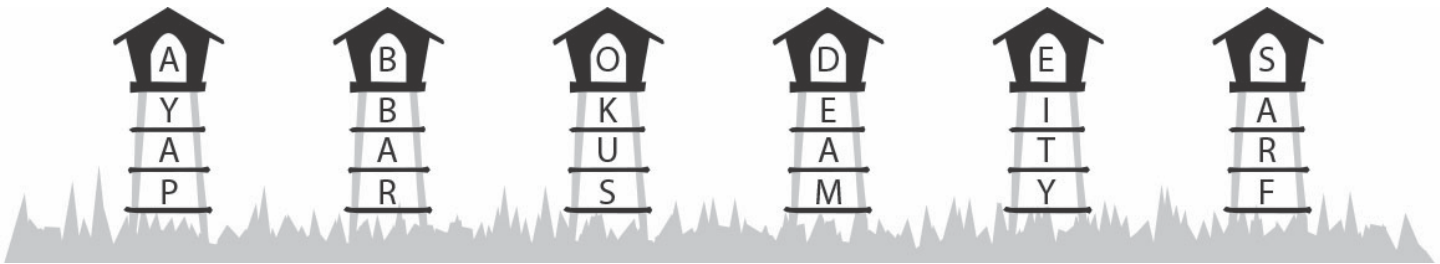

The grids may be filled as shown. In each grid, the right angle turn made by two words "climbs" up out of the grid; thus, the letters in each of those stretches (all four letters long) are unchecked in the grids, which otherwise function as described.

M	^A A	P	N	E	E	R	G
O	D	E	P	A	B	E	X
L	T	O	S	Y	E	L	G
A	L	S	S	L	C	A	N
S	U	^D O	L	P	I	D	I
U	N	U	L	M	A	E	N
R	A	S	A	V	A	N	N
Y	C	Y	E	L	I	M	A

R	A	P	A	S	O	R	T
K	I	P	^F	^C	A	R	O
S	C	E	O	L	E	N	
R	E	R	U	E	I	B	I
E	C	O	R	N	B	U	B
T	R	O	W	O	L	O	
A	C	O	^A	I	M	A	R
W	A	R	S	L	R	E	D

I	D	I	O	T	T	E	P
C	R	O	T	C	A	T	P
C	I	R	I	H	X	S	E
I	S	E	Y	E	^T	E	G
R	O	A	M	T	E	N	G
T	O	J	E	S	S	O	Y
E	D	E	L	O	T	P	C
M	M	Y	S	A	S	S	^A

Climbing tetragrams should be entered in the huts below the puzzle, ascending from the rainforest floor into the huts, in their relative left-to-right, top-to-bottom order in the grids. Letters inside the huts, left to right, spell the answer ABODES.

Reading back down the rungs, in the same order, gives a message from the garrulous dogs: YAP BARK USE AMITY ARF, thus the answer is AMITY.
