CRYPTOANTIOPHTHALMOLOGY

~~NPLabs' new invisibility ray grants us the power to~~

NPLabs is not cleared to release the PowerPoint presentation regarding its latest breakthrough, as it's not quite ready for public eye.

*Psst... look in the corner of the ballroom.
I got you a sneak peek*

- 1 A collections agent goes looking for him
- 2 Sensible, bright
- 3 Display feelings
- 4 Subject with laws that must be observed
- 5 He shows up for work really early
- 6 You can recognize it by the zigzag pattern down its back
- 7 What they'll do to you if you're witnessed committing a crime
- 8 What they'll do to you *later* if you're witnessed committing a crime
- 9 You'll see him when you die, as the saying goes
- 10 Where things are priced to clear
- 11 Use "q.v."
- 12 Bubbles can obscure the view here
- 13 A light gait that can be kept up for a while
