## SOLUTION - AN ALL-OUT NAVEL ASSAULT

Each of the twenty words comprising the ten two-word answers indicated as being useful in defeating Ravana can have its head cut off to be replaced by another (and only one other). The new heads are unique, and order the new words into two ten-word sets. Use the eyes on the first set of ten and the mouths on the second set, matching the words to the heads in order right to left, top to bottom, and indexing into the words by the number of eyes/teeth, from the end indicated by the gaze/tongue. To wit:
