

The Island of the Cyclopes - SOLUTION (ALTERNATIVE / FOLIO)

The trigrams can be arranged to match the enumerations in a given row to yield names of novels, films, or plays. Circled letters give the first answer, ALTERNATIVE. Each of these takes its plot from an earlier work. Using those titles instead gives the message AND TRY FOLIO.

As the Sinbad story described here is clearly derived from the similar episode in *The Odyssey*, the grid and intro text for this puzzle were similarly recycled from my "The Island of the Cyclopes" puzzle from 2007's *Odyssey*-themed extravaganza.

*Parts 1 and 2, as well as Henry V; all work for the grid.
