

## FLEEING FROM TIGER SOLUTION – HELIPAD / LIMOS

Clue answers form triplets sharing a common theme. Paths connecting each set of three items cross one national flag, one enumeration, one Roman numeral, and a unique number of paws. The enumerations for each set can be used to identify another item within each theme. These items are all the soubriquets of Chasers from various editions of the game show The Chase (national flags indicate which edition). Ordering these by number of paws and using the Roman numerals to index into the Chasers' real names spells the two answers LIMOS HELIPAD. In paw order:
