

OLD TRAVELER SOLUTION - MASCARA, GENTLE, SILLIER

The "intended" answer list is shown below the grid. In the grid itself, family members BRO, SIS, MOTHER, PAPA, UNCLE, AUNT, GRAMMA, and one LOVER have all been turned into various animals. Thus, "cheMOTHERapy" is entered as "cheDUCKapy", for example. Once everyone has been found, leftover letters read "To find your answer words, consider sis, gramma, and aunt." For each of those groups of words, initial letters of the animal transformations, in wordlist order, spell MASCARA, GENTLE, and SILLIER respectively.
